A colored cadet-Whittaker-was on the night of the 6th inst., violently assaulted n his bed by three masked ruffians-supposed to be cadets-and had his ears out one of them slit, and the lower part of the other gropped. He was found upon the floor tied to his bedstead. The authorities of West Point are trying to solve the nefarious deed.

The King of Burmah, is said to have a malignant disease preying upon him which is said to be leprosy. To placate the irate god that presides over these matters, a Rangoon dispatch says that a sacrifice of seven hundred men, women, boys, girls, priests and foreigners have been buried alive under the towers of the walls of the city. This wholesale immolation produced a panic, and the people were fleeing from their homes.

The disgraceful methods by which people are fleeced under forms of law, and through the agencies of courts claiming to be courts of justice, have of late years been too common to be pleasant to con template. Senator Bruce, who was chair man of the committee to investigate the Freedman's Savings Bank business, re ports that since the bank went into liqui dation \$50,000 have been paid as salaries of commissioners appointed by the governor to wind up the concern; \$70,000 to in the agents, and \$31,000 to attorneys, making a total of \$151,000 of the savings of poor depositors gone to feed hangers on.

The fifth of April will henceforth be a ignificant day to the temperance women of llinois. For on that day the Home Protection movement took tangible shape for the first time, and women actually went to the polls and deposited their ballots against license, in the city of Keithsburg, in Mercor county. One hundred and sixty-five voted, and all on the right side. The day's work opened with a prayer-meeting; the ballots were given out to the women in a church, and they marched two by two, as in the days of the Crusade. Honor to the town board that had the liberality to pass the ordinance which rendered poszi-

ble a result so beneficent. It is now four years since the suits were commenced against S. J. Triden, to recover income tax. At his request the suit has been again postponed—this time until November, after the elections. He expects to be the candidate of his party for President, and prefers to take all the odium attaching to these repeated requests for continuance will be construed, and without unfairness, into a confession that he is guilty.

What does the sage of the Standard say

What does the sage of the Standard say about the posture of that income tax? It appears that the thing is not disposed as was intimated, and Sam'i J's persecution is brought to a stillborn cone the government, you see, friend Daniel. What can be the object of staving the thing off in the way here asserted?

Voorhoes' Exodus Committee seems to have effected nothing but to spend the appropriation made for their political and party enjoyment. They have gathered no information such as was desired-for party est on which amounts to over \$5,000 a day. capital—and they have been mot with disand Wednesday last, 33 witnesses, mostly from Kansas, and mostly Republicans, were discharged without coming upon the stand, whose fees and mileage aggregated \$5,000, which absorbs almost the last dollar of the appropriation. The witnesses were not examined for the reason, that if kept any longer there would not be enough of the appropriation left to pay them, and Vorhees had not the face to ask for a further appropriation to waste upon this party chimera. The committee will be likely to come to a finale in a day or two. A sample of Democratic economy.

The distracted Democrats of the Senate are holding caucusus and making discov eries of the impediments in their way of Democratic majority in the Senate rufuses don, Butler, Lamur and Hampton—will not vote under any circumstances to this and making. We have a reserve of respect for It is also intimated that Senator David Davis is ready to vote with the Republicans on the Kellogg case, so it would seem that a good part of the prominent Senators, will not sanction the ousting of Kellogg, lest a rupture should occur and the loyalty of the party should be disturbed arraying the faithful and faithless against each other. It is thought that the ovement may be deferred until another session, and the Presidential election shall have been passed.

The New York Tribuns in its market report, explained why some butter is sold for such low prices. In speaking of butter it said, "Light colored goods are hard to dispose of, and several lots were thought well sold at 8 to 10 cents." If butter makers would get the top price, they should use the Perfected Butter Color, made by Wells Richardson & Co., Burlington Vt. It gives a pure dandellon color and it never red, or ranoid, but tends to improve and preserve the butter.
